B Reading & Listening Skills

Pre-reading question:

Lesson 1: What helps us to learn?

- What problems do you face while learning English?

Read and listen to the two posts from a student forum about learning. SB page 5

(A)

I was in Grade (1) 7 English last year and I really enjoyed it. From my experiences (2) I have some suggestions to help you learn. When you read a text (3), it is useful to underline (4) new words or highlight them. I find it easy to remember the meaning of the words, but I sometimes find it difficult to remember how to spell them. I read online that you can remind yourself of tricky spelling words by linking them to other words. For example, I always forget the difference between **desert** and **dessert**. I tell myself that dessert has two 's' letters, so it reminds of **sweet strawberry** desserts! Sweet strawberry begins with two 's' letters like the word dessert, which is a sweet food to eat. Desert has only one 's' so it is a piece of land, not a kind of food.

(B)

Hi Amr!

Thank you for your post, it was very interesting. I'm not really worried about learning new words, or spelling as this is something I am good at. However, the idea of underlining or highlighting new words is very useful, so I will try that this year. What makes me nervous (5) is when I have to give a presentation (6) in class. Can you give me any suggestions about that? What is a good way to practice a presentation? Also, my mom says it is good to take a break when you are tired. What do you think? What did you do in grade 7 when you needed a break?

Lesson 2: Learning in an environmentally friendly way

Pre-reading guestion:

- How can we help the environment while we're studying?

Read and listen to the article. Match the topics to the paragraphs. Studying and the environment

When we are learning, it is important to think about the environment (1). Everyone knows how important it is to protect our planet. Here are some simple tips (2) to make your learning more eco-friendly (3). The nice thing is that these ideas are easy to do.

- (1) Saving paper First, try to use less paper. Why don't you use a computer or tablet to take notes or to read books? This way, you save paper and help the environment. I know these devices 40 are quite new. What did people do in the past? People couldn't use a computer because they didn't exist (5), but today we have a choice (6). Another thing that is important to think about is what to do when you want to print something. One idea is to print on both sides of the paper to reduce (7) waste.
- (2) When you study When do you usually study? A lot of students study in the evening when it gets dark. But ask yourself this question: How did people study before there were electric lights (8)? You can save energy while studying. Turn off lights and devices when you are not using them. Try to study during the day so you can use natural sunlight. This will help you use less electricity.
- السلة (1) تصافح (2) مديق للبيئة (3) احمزة (4) يتواجد (5) اختيار (6) يقلل (7) مصابيح كهربية (8) (9) apic člo المواصلات العامة (10)
- (3) What you use when you study Next, ask yourself the following: What materials (9) do I use when I study? Pick up a pen and look at it. Is it made from plastic? The answer is probably: yes. Nowadays you can buy pens made from recycled materials and notebooks that use recycled paper.
- (4) Traveling to school Finally, how do you get to school? Why not walk, cycle, or take public transportation to school, to help reduce pollution?

Post-reading question:

-What is the article about?....

"How to learn in an eco-friendly way"

We can learn in an eco-friendly way by making small changes. We can walk, use bikes, or use public transport to get to school to reduce pollution. We can choose eco-friendly study materials like recycled notebooks and pens made from sustainable materials. We can take notes on a computer or tablet instead of using notebooks to reduce paper. We can study during daylight hours and turn off lights and devices when not in use to save energy. By making these simple changes, we can help protect our planet.

Reading & Listening Skills

Pre-listening question:

- What do you know about the brain?

Lister I Fact of Spinion

Listen and check your ideas for Exercise 1.

Hello, everyone! Today, we are going to talk about the brain. The brain is a very important part of our body. It helps us think, feel, and move. Our brain controls everything we do!

Now, let's look at some statements about the brain. I will tell you if each one is true or false.

Statement 1: We only use about 10% of our brain.

(1) danta (2) ——	عملکت ((2) ১৯০০
	35100	(2) 2000

معقد (4) حل المشكلات (3)

This statement is false. Some people say we only use 10% of our brain, but that is not true. We actually use almost all parts of our brain every day. Different parts of the brain work together to help us do different things, like speaking, moving, and remembering.

Statement 2: A sperm whale's brain is bigger than a person's brain.

This statement is true. The sperm whale has the biggest brain in the animal kingdom. Its brain can weigh about 8 kilograms, while a human brain weighs about 1.4 kilograms. Even though the whale's brain is bigger, our brains are more complex? This makes us good at problem solving.

Statement 3: There is a lot that we don't know about the brain.

This statement is true. Scientists know many things about the brain, but there is still a lot we don't understand. The brain is very complicated ', and there is much more to discover about how it works.

Post-listening questions:

- 1 Do they know any other facts about the brain?
- 2 How do different parts of the brain work?

Pre-reading question:

- Mention one of the functions of the brain.

Read and listen to the article about the brain.

The truth about the brain

Many people think that when we learn our brains make new brain cells. But actually, we create new connections between brain cells we already have. In fact, one brain cell can connect with up to 10,000 others.

In the past, people believed(1) the brain "turned off" when we went to sleep. But with new technology, we now know that some parts of the brain stay active during sleep. Sleep is very important for learning because it helps us remember things better. In fact, people who get enough sleep can remember about 20% more than those who do not.

Literary St. Fig. 1 and 1 p.

For young people, research 3 shows that learning feels more interesting if they know how it can help them in real life. About 85% of students say they learn better when they understand why a topic is useful. So, it's important for teachers to explain (4) why lessons are helpful.

Finally, our brains have a habit of telling us that things we agree with are "facts". When we disagree with something, we see it as an opinion. This happens naturally, but it's helpful to remember that just because we agree or disagree with something doesn't mean we are right.

"The brain"

The brain is a very important part of our body. It is inside our head and helps us think, learn, and control the whole body. The brain consists of many brain cells that connect with each other. When we learn something new, we make new connections between the cells. New technology helps us see that the brain stays active even when we sleep. When we agree with someone, our brain thinks it is a fact. When we disagree, our brain thinks it is only an opinion. Understanding the brain helps us learn and communicate better.

The brain is the control center of our body. It helps us think, feel, and move. It's like a supercomputer inside our head! The brain receives information from our senses, such as sight, hearing, and touch. It understands this information and sends signals to our body to respond. For example, if we touch something hot, our brain tells us to pull our hand away quickly.

The brain is made up of billions of tiny cells called brain cells. These cells connect with each other to form **complex** networks. Scientists are still learning about how the brain works, but we know that it's an amazing organ that helps us live our life.

An afternoon with my grandmother

Date: October 22, 2024

Today, I spent the afternoon with my grandmother who is from Senegal. She showed me how to make a necklace from different colored beads. The beads were very small and I kept dropping them which was annoying! I wanted to give up but my grandmother encouraged ' me to keep going, saying, "It takes time to make something very beautiful," Her words made me think about how I always want quick results 2 and don't spend enough time trying to learn something new. As I continued, I found a thythm i, and I started to really enjoy myself.

My grandmother shared stories about how she learned this craft " from her mother. She explained that each color bead has a different meaning in Senegalese culture. For example, red represents strength and courage; blue means peace; yellow is for money, and green is for hope or nature.

Now, lappreciate 5 my culture. Making the necklace helped me to connect with the traditions of the women

in my family. In the end, my necklace wasn't perfect, but I felt proud. I learned that handicrafts 6 represent our connection to tradition (7, culture 8, and our values. This experience taught me patience ", the importance " of practice, and the meaning behind what we make.

Action Plan 1: Next time I will focus on staying patient and asking my grandmother more about the meanings behind the beads. I want to enjoy the process and continue connecting with African culture and traditions.

Planning for our future

City planning ' is very important for small cities in Egypt. It helps city leaders `decide how to use land. As the population 'grows and more people need to ive in cities, planning helps towns and cities plan carefully to make sure that all the new people have a good place to live.

One part of city planning is building new homes, schools, and parks. Construction " is important: with more people moving to cities, we need more houses. Town and city planners 5 must make sure that new homes are safe for the community.

Another important job is creating hospitals, shops, and

other community areas, and thinking about where to put them. These facilities "help improve the quality of life for the people who live there. For example, parks provide a place for families to relax and play, and schools are needed for education .

Many small cities are near beautiful open areas. City planning thinks carefully about the countryside 1. We need to protect the environment in these spaces as well as build homes and facilities for future population growth 100. This way we can keep the environment healthy and provide a nice place for people to enjoy nature.

So, city planning is very important for all small cities, not just in Egypt, but everywhere. By planning carefully, cities can become better places to live in and respect the countryside at the same time.

This week we are sharing our volunteering experiences. Tell us about your experience!

SB page 18

Last summer, I volunteered at the zoo every weekend, through our school volunteer program. I was so excited because I love animals. but I was also nervous about meeting new people. Everyone was friendly though. I started by feeding the monkeys. They were very playful 1! Here's a photo I took of them. I also helped clean the lions' enclosure. The lions were usually lying in the sun. By the end of the summer, I felt proud. Not only did I get to help the animals, but I

also learned a lot about animal care, and made new friends. Saying goodbye to my new friends was nard, but we promised to keep in touch and do it again next year.

Elias, Salzburg, Austria

Last week, I volunteered at the museum with my school history club. I love history and helping people, so I was excited! On Saturday, we arrived at 8:00 a.m. before the museum opened, and helped make some museum displays 1. Then the museum opened! Not long after that, I saw a group of younger kids who needed some help. I helped them draw pictures of their favorite artifacts. Some kids were shy at first, but when they started coloring, they became more confident 51. By the end of the

day, I realized how much I loved helping others discover history. I can't wait to volunteer again! Lamees, Egypt

Last term, our class spent an amazing day volunteering at a national park. On Saturday, we left really early. The sun was still rising! We drove to the park in our school bus and met the park organizers. Our first job was to clean up the hiking path. There was so much to do, we were still picking up trash at lunchtime! All the trash made me sad, but it also felt great to do something to keep the park beautiful. I learned that our park is home to some important birds, and in the

afternoon, we built birdhouses. At the end of the day, the park organizers told us that our work helps protect the wildlife and the environment.

Helping out

I recently volunteered at a local animal volunteer program. I helped clean the monkey enclosure, feed the animals, and play with the cats and dogs. I helped make a cleaner and happier environment for the animals. I learned the importance of helping others and the joy of giving back to the community. It was a truly amazing experience. I will volunteer again next year.

What do you think of it? Do you like it?

SB page 20 population growth facilities Shorouk Hey, Farida! How's your new life in Europe? diay بخرح للتبرة ١ - bisa Hi! It's OK, but I just went to the basketball Farida محطات فترو الإنماق court(1), and it's closed! There was a sign(2) saying it isn't safe. Now there is nowhere to play basketball. 😕 Shorouk Oh, no! Here, we have a similar problem. The population is growing every year. They're building new apartment buildings everywhere, which is great, but they are building on the open spaces. I wish we had more parks to hang out (3) in. Exactly! I want to meet new friends, so I went to the local community Farida center. It's really old and outdated and doesn't offer many activities for teens. Shorouk That's frustrating. It sounds like you need better facilities. The thing that bothers me is that people are using their cars too much in the city and park their cars on the sidewalk! There needs to be a better solution, like more subway stations or Farida more underground parking. You know what? I think we need to study city planning at college and put things right! Shorouk Good idea!

Interviewer Thank you for talking to me today for our school newspaper! We would love to hear about what the food market 111 was like in the past. How has it changed over the years?

Man

Well, my stall has been here in this street market for 25 years! Back then, the market was much smaller, and it had a small community feel. While I was selling food,

(2) طفح سوف الفذاء ([) محادثة (3) الريف (4) متحر بقالة . 5) هدابا تذكارية (6)

people came to talk, not just buy food. When they were shopping, customers always stopped to have a conversation. People's lives are so busy now, that doesn't happen as much.

Interviewer

It sounds like it was wonderful! What about the things you sell? Are they the same now as they were then?

Man

Well back then every day we were bringing food from farms in the countryside 'nearby. Everything was fresh! But when the larger grocery stores and supermarkets appeared, everything changed customers while the supermarkets were making lots of money. People were choosing faster ways of shopping while their lives were getting busier.

Interviewer

So, did your market get smaller?

Man

Well, no! In fact, it got bigger. There are more tourists now and they come to see the traditional market. We were only selling fresh food when the tourists first arrived. Now we also sell souvenirs ! This means that we are now selling more, which is good for everyone.

Interviewer

What do you think the future holds for the market?

Man

I believe the market will continue to grow. As long as we're able to change with the times, I think we'll find new ways to sell to customers, and make our customers happy.

Interviewer

Thank you for sharing your memories! It's clear that the market has

a rich history.

Man

Thank you! Now, would you like to try some oranges ...

Post-listening question:

- What does the man think about the future of the market?

Example

A problem in my community

Every community has some problems. One of the problems in my community is that there aren't many facilities for children and adults. There aren't enough places for exercising, relaxing, hanging out, and having fun. The main reason is the construction of new buildings on open spaces. For example, they built an apartment building instead of the local park. It was very frustrating. We can work together to solve this problem. We can encourage the local leaders to assign land for building more parks and community centers. We should also keep all these places clean to improve the quality of life.

The twins' discovery

- In the new city, twins Adam and Amira lived in a small apartment on the top floor of a tall building. Outside in the city were the sounds of cars, and the noise of the construction of new apartment buildings and facilities.
- One sunny Saturday, Amira and Adam wanted to explore their neighborhood. "Let's see what's happening at the park!" Amira suggested to their parents, with excitement .". The park was across the street, and they often played there on Saturday mornings, but today they wanted to see the new playground that was under construction.

- As they walked along with their parents, they noticed the busy workers setting up swings and slides. "Wow, look at that!" Adam shouted, pointing at a giant climbing structure. It can't wait to try it out!"
- When they reached the park gates, they found a small crowd of people looking at the construction through the gates. They wanted to <u>find out</u> what was going on, so the twins went to the front. A friendly worker named Mr. Ragab noticed them and smiled. "Hey there! Do you want to see how we build playgrounds?"
- Amira and Adam nodded with excitement. Mr. Ragab explained the process of construction, showing them how they carefully put each piece to make sure it was both safe and fun. The twins were fascinated of the They learned about teamwork planning, and the importance of creating spaces for everyone to enjoy.
- After the playground construction was finished and safe, Mr. Ragab invited families to help with a small task. "We need to paint the benches Would you like to help?" The twins looked at each other, and agreed.

The family spent an hour painting bright colors on the benches, laughing and chatting with the other volunteers.

- Mamira and Adam stepped back to look at their work. The new benches looked wonderful and bright. "We did a good job!" Adam said. Amira agreed, her heart was full of happiness. "We can be proud that we helped make our city better!"
- On their way home, the twins and their parents talked about how important it was to contribute to their community. "Today I understood that it's not just about having fun at the park," Amira said. "It's about making it a nice place for everyone too."
- That night, as they lay in bed, the twins realized that even small actions make big changes. They felt part of a community, and that meant working together to create a better place for everyone.

Pre-reading question:

- What do you like most about your city?

Read the Nabila's journal entry post. January 25th, 2025

Today, my grandma showed me some old photos of our city. It was a town back then! She could walk to the sea from her house. There were lots of green spaces, and it looked so peaceful. In the photos. Now, there's hardly any open land left. It's all been taken over by construction. The population has grown so much that there are apartment buildings from here to the sea. I love my city but now there are not enough trees for the birds to live in.

I started thinking about how the town has changed over the years. We've built more houses and roads, but there is not enough countryside anymore. There's too much pollution and too many buildings. Maybe we need to slow down and think more about the future – especially the future of the environment.

مناك فرق بين so/very much / too much

- تُستخدم so/very much عندما تكون الكمية كبيرة ولكنما مقبولة أو إيجابية وتأتى في الحملة المثنتة - too much تعني أن الكمية مفرطة أو أكثر من اللازم، مما قد يسبب مشكلة أو عدم راحة، وتأتي غالبًا في السؤال والنفي . - لاحظ يمكن أن يأتم (too much/ too many) في الجمل المثبتة ، ولكنهما دائمًا ما تحملان معني سلينًا (عادة مشكلة).
- کاف ِ/بدرجة کافیة (جمع/کمیة) enough

enough اسم جمع/اسم مفرد not enough

e.g. We have enough chairs for the guests. Is there enough water in the bottle? Oh no, there aren't enough players for the game! There isn't enough space in the car.

- (1) When was your day out?
- (2) Where did you go?
- (3) What did you do on your day out?
- : (4) Who did you go with?

A day out

- (5) What was the weather like?
- (6) What was the highlight of your day?
- (7) How did you feel at the end of the day?

Example

A day out

Last Saturday, I had a fantastic day out with my friends. We decided to explore the nearby town of El Gouna. It was sunny. We spent the morning walking along the beautiful port. After a delicious lunch at a restaurant, we took some boats and spent the afternoon on the water. The highlight of the day was the amazing sunset we watched. As the sun set, painting the sky with bright colors, we felt fascinated by such a wonderful experience. By the end of the day, we were tired but glad, with memories to remember.

d) safety

My grandma showed me old photos of our city. It was a small town (1).... then. There were green fields and open (2)....., and she could walk to the sea. Now, the city is full (3)..... apartment blocks, leaving hardly any open land or trees. It makes me wonder where all the (4)......is.

Read the following, then answer the questions:

Today, I reflected on how my town has changed over the years. When I was young, there were many green fields and parks. People could walk to the river easily. Now, there are many buildings and roads. The population has grown, and many trees have been cut down. Birds and other animals have fewer places to live. The air feels less fresh because of **pollution** from cars and factories. I love my town, but I miss the peaceful green spaces. It makes me think about how important it is to protect the environment. We need to find ways to balance growth and nature to keep our town beautiful and healthy for future generations.

- How do you usually feel about exams?

Read and listen to the text messages. What do Khaled and Karim decide SB page 28 to do?

Hi Khaled! How are you? I'm a bit nervous about my presentation 10 on Thursday. I'm worried that I'll do badly. Do you want to do something on Saturday? We'll have free time! Maybe go to the mall?

Hi Karim! I'm OK, thanks. I'm excited about the presentation. You need to relax. You'll do well. Don't worry! I'm going to my grandparents' house on Saturday morning. What about

Saturday afternoon? I'm surprised that you want to go to the mall. Do you like shopping now?

OK, OK. Maybe going shopping isn't the best thing for us to do. : What about going to the movie theater on Saturday? I want to see that new action movie.

Sure. We can see that film at 2 o'clock or 4:30 p.m. on Saturday at Cinema El Shorouk in Sunrise Mall. What do you think?

OK. 4.30 is better for me. I can meet you at the entrance 4 to the mall at 3:00 p.m. if you like.

Sure. Sounds good. See you tomorrow. 🙂

Two friends

- A) Last Saturday, Mom took me to meet my friend Heba at a café in town. We met when we were just six years old and she's my best friend. We always have fun and help each other with schoolwork. Heba told me, "I'm going to bring some photos from our last trip, Sara!" I was excited because we both love taking photos for social media, and I wanted to see them.
- B) I also have a friend named Jessica, but I don't think she is going to be a really good friend because sometimes she is kind and sometimes she isn't. We met online a few months ago. At first, she was really nice and liked my posts(1), but now I notice12 she doesn't really care131. Sometimes, she says, "I'll text you later," but she never does.

- (2) How does a real friend make you feel?
- (3) Why is a real friend ?یعتبر کنزا considered a treasure

A real friend ... fake friend

- (4) What is a fake friend?
- (5) How do fake friends act?
- (6) Why is it important to know the difference?

Example

"Types of friends"

A real friend is someone who is always there for you. They listen to you, help you, and make you feel good about yourself. They make you feel included. When it's hard, they always stand beside you. A fake friend, on the other hand, is someone who only cares about themselves. They are only interested in you when they like. They will talk about you behind your back and try to make you feel bad about yourself. It's important to be able to tell the difference between a real friend and a fake friend. A real friend is a treasure, and you must keep them.

Using social media for a good cause

Youssef is a college⁽¹⁾ student who loves planting trees. One day, he hears that a park near his house needs more trees. The city doesn't have enough money to plant more, and Youssef wants to help. He decides to use social media to spread⁽²⁾ the word.

Youssef posts a message on social media. He writes, "Let's make our city greener! The local park needs trees. Join me to raise ³⁾ money and help to plant them!" Youssef includes a link to a crowdfunding ⁴ page he made for the project.

His friends see the post and share it with their friends too. Soon, people from all over the city are talking about it. Many people give money, and others offer to help plant the trees. Even a local business decides to support.⁵⁾ Youssef's project and give some money.

After a month, Youssef's project raises enough money to buy many trees. On planting day, Youssef and a large group of people go to the park to plant the new trees.

When the work is done, the park looks beautiful, with lots of young trees ready to grow. The city thanks Youssef for his hard work, and he feels proud because he made a difference. He learns that social media is a great tool to bring people together for a good cause. Youssef realizes that he can use it to help make the world a greener place.

"Give a title" «وضع عنوان

When you give a title to something like a book, article, or story, you usually capitalize the important words. But, you don't need to capitalize small words like "the", "a" or "of" unless they are the first words of the title.

For example:

- Give a title to the previous passage.
- "Using Social Media for a Greener Community".

The Adventures of Huckleberry Finn

SB page 36

Lossen & Litoratur

The Adventures of Huckleberry Finn tells the story of a young boy, Huck, and his journey down the Mississippi River. Huck is clever and adventurous b. He decides to leave home and travel down the river. Along the way he meets Jim, an escaped servant 21. The two become close friends. They travel together on a small raft 3 down the river. During the journey they share food, stories, and laughter(4).

Huck and Jim's friendship grows stronger as they face many challenges. They meet different people, some friendly and some not. They look to each other for help and support. Huck sees Jim as a true friend and someone he can understand. The two spend time fishing, exploring, and enjoying the beauty of nature. This shared experience brings them closer together which gives Huck a sense of peace he never felt pefore.

Lesson 6: Writing

Pre-reading question:

- How will you feel if your friends move away?
- Read the tips. Match the headings from the box with the tips.

SB page 38

Six tips to keep in touch with a friend who moved away:

Send messages every day

Write short messages to each other. It can be a simple "Hi, how are you?" or "Guess what I did today!" You don't need to write long messages; even small updates are nice!

Have video calls

Choose a time each week or month to talk online. You can talk face-to-face and feel like you're spending time together.

Share photos

Take pictures of things you see, like funny signs, your lunch, or places you go. Sharing pictures is a fun way to show what's going on in your life.

Play online games together

Find games you both like and play together online. This way, you can laugh and have fun, even if you're not in the same place.

Try to visit

Ask your parents if you can plan a visit. It can be something to look forward to together!

Show interest in your friend's new life

Ask questions like "What's your new school like?" or "Have you made any new friends?" It helps you stay connected to their world.

"A short story about a true friend"

Emily was a true friend. She was kind, understanding, and always there to listen. One day, her best friend, Sarah, was feeling very sad. Sarah had failed a test and was worried about her future. Emily listened carefully to Sarah's worries and said kind, helpful words. She helped Sarah study for the next test and reminded her that everyone makes mistakes. With Emily's support, Sarah could face her fears and start to work again. This story teaches us the importance of true friendship and how a kind word or a helping hand can make a big difference.

(A) Last month, I joined a weekend volunteer program to clean up our local beach. Every Friday and Saturday, we spent a few hours picking up trash. We started early each morning. The team leaders gave us gloves, trash bags, and special grabbers to pick up the trash. Some volunteers were students

like me, and others were families or local people. Each weekend, we cleaned the beach and along the shore. I couldn't believe how much trash we found. There were bottles, cans, old shoes, and lots of plastic! I felt very proud to be part of the volunteer team, and pleased that we were helping to keep our beach clean.

(B) Last summer, a group of students from my class volunteered at a community garden. We volunteered three days a week for a month. We looked after the vegetables and fruit trees, and we tidied the garden to keep the plants healthy. It was a hot summer so we watered the garden to keep the soil wet.

When the vegetables were ready to pick, we put them in boxes and took them to families and old people in the community. I really enjoyed helping people in this way. I learned a lot about gardening and how to grow vegetables without using harmful products. I can't wait to visit the garden again next year.

Ben, United States

(C) Last week, I volunteered at a day care center for children where my aunt Mary works. I love children so I was excited. I arrived early in the morning and met the people who work there. First, I helped set up toys and games to play with the children. We built towers with bricks and we played in the

toy kitchen. Then, we sang some songs and drew colorful pictures. At the end of the day, I read the children a story which they loved. Then, I helped clean up the playroom and I said goodbye. I was very tired, but I felt happy. I learned a lot about child care and I'm going to volunteer there again!

Sherif Hi, Magdy! Guess what? This weekend, my family and I are going to Alexandria!

Magdy Oh, that's great, Sherif! What are you going to do there?

Sherif We're visiting the famous library. You know, the Bibliotheca Alexandrina⁽¹⁾. I think we're going to spend a whole day there. My dad says we can see some ancient manuscripts⁽²⁾ and learn about Egypt's history.

Magdy That sounds amazing! I've always wanted to go there. Where are you staying?

Sherif We're staying in a small hotel near the Corniche which is near the sea. Dad says we'll have a great view of the sea from the hotel, I'm so excited.

Magdy That's perfect! How are you getting there?

Sherif We're driving. Uncle Youssef is coming with us, so we'll go in his car. It's bigger than ours and more comfortable.

Magdy Nice! How long does it take to get to Alexandria from here?

Sherif About three hours so we're leaving early on Saturday morning.

Magdy Are you planning to visit other places, too?

Sherif Yes! My mom wants to see the Citadel of Qaitbay⁽³⁾. It's an old fort⁽⁴⁾ by the sea which they built on the ruins of the ancient Lighthouse⁽⁵⁾.

Magdy That sounds amazing.

Sherif And we're going to have a picnic in the Montazah Gardens. My sister Nadine says there's a palace⁽⁶⁾ there which will be amazing to see.

Magdy Wow, you're going to be busy! What about food?

Sherif Oh, we're having dinner in a seafood restaurant on Saturday night. Mom says Alexandria has the best fish and seafood. I can't wait!

Magdy Now, you're making me hungry!

Sherif I'll take lots of photos to show you when I get back.

Magdy Have a great trip, Sherif.

Sherif Thanks, Magdy!

Today, I spent the afternoon with Donia. Donia is my older sister who loves sport. So today, she was teaching me how to play table tennis. I was really excited because it looks fun and I wanted to learn. First, Donia showed me how to hold the bat⁽¹⁾ in my right hand. Then, she showed me how to throw the ball into the air with my left hand and hit it with my bat. At first, I couldn't hit the ball. If I hit the ball, it went

into the net. I was really upset⁽²⁾ but Donia told me to keep trying. She was very kind and she didn't get angry. She kept showing me what to do.

After a while, I actually hit the ball over the net! I was so pleased⁽³⁾! I practiced again and I got better. Then Donia said "OK, I'll hit the ball to you and now you hit it back to me." After a while, we were hitting the ball to each other. I missed the ball sometimes but it was fine. In the end, I could play a game. Donia won the game of course but that didn't matter⁽⁴⁾. Today was a great day!

Research⁽¹⁾ shows that some teenagers⁽²⁾ spend a massive ³ 8.5 hours looking at a screen every day. This huge amount ¹⁾ of time doesn't even include the time teenagers look at screens when they do their homework. About 95% of teenagers have cell phones, but this was a tiny 23% in 2011.

My teenage children have their own cell phones with their own accounts. I get a message every time they want to download an app or buy something from a game. I click and then they can do it.

Pre-reading question: - What do you know about Al?

Read and listen to the article.

SB page 46

The future is already here!

Artificial intelligence (or Al for short) is a type of technology that helps computer systems to do tasks 1 that usually only humans can do, such as making decisions or solving problems. If you use streaming platforms 21 to watch movies or TV shows, you are using Al. The streaming platform uses algorithms ' to "learn" what types of movies or TV shows you like to watch. If you enter data by choosing movies, the algorithms learn what you like from that data. The platform then uses what it learned to personalize your homepage on the platform with suggestions for similar movies

and TV shows. If you watch a lot of science fiction 5 movies, the streaming platform shows you suggestions for other science fiction movies to watch. This is called "machine learning" "because it's a process" where technology learns things and then uses what it learns to help people. The same thing happens with online shopping. If you shop online, Al learns and remembers what you like to buy. Then you see advertisements ' for similar clothes when you go online or use social media.

in New Zealand, some primary school children are learning about the environment and renewable energy ' from the world's first Al teacher called "Will". When teachers use technology in the classroom, students are usually more interested in learning. But Will is technology that looks and behaves like a real human. When students see him for the first time, they think he is real! If children ask Will a question, he gives an answer. He can also understand the expressions on students' faces. If students smile at Will, he smiles back. If students don't understand something, Will helps them.

Some people think that AI encourages us to spend more time online because of its suggestions for more things we can watch or listen to. But Al can also make learning fun and make our lives easier. Surely that isn't such a bad thing!

Post-reading question:

- Do you think all the schools will have Al teachers instead of real ones? Why/ Why

"The Impact of AI in our Daily Lives"

Artificial intelligence (AI) has a massive impact on daily life. Algorithms and machine learning help streaming platforms personalize your homepage with suggestions based on your behavior, like movies or shows you watch. Al is also used in online shopping to show advertisements for items you like. This generation of teenagers and adults notices Al in gaming, research, and renewable energy projects. Al encourages better decision-making and improves systems, making life easier for humans. As Al continues to grow, it will change how we work, communicate, and live, offering new possibilities for the future.

Dad So, you want me to buy you this expensive, new phone for your birthday?

Teen boy That's right.

Do you really think that's a good idea? I think we need to think about this carefully before I make a decision.

Teen boy OK.

Dad Let's make a list of the pros and cons of buying this phone in a chart (2) ... We'll start with the pros.

Teen boy

The new phone looks better than my old phone. That's the first pro. It's also the same phone that my two best friends have, and I want to have the same phone as them.

Dad Are there any other pros?

Teen boy Yes, the third pro is that I could take better photos with the new phone because it's got a better camera.

OK, now for the cons of buying the new phone ... It's very expensive, so you wouldn't get any other presents from us at all this year.

Teen boy Urgh.

Dad Another con is that you'll spend more time looking at a screen if we buy you this phone. And breaking or losing the phone would be terrible because it's so special and expensive.

Teen boy OK, now we have three pros and three cons. What do we do next?

Dad We give each pro and con a value ' from one to ten to show how important we think they are.

Teen boy OK. It looks good – 7 points **. It's the same as my friends' phones – 5 points. It has a better camera – 8 points.

Now, I'll do the cons. It's very expensive – 9 points. You'll spend more time looking at a screen – 8 points. It would be terrible to break or lose it – 5 points – because I don't think you'll break or lose it. So … if you add all the values for the pros together, you get 20 points. If you add all the cons together, you get 22 points. 22 points is more than 20 points, so there are more cons than pros.

Teen boy So, you aren't going to buy me the new phone?

Dad That's right. Maybe when you're a bit older.

Presenter Today I'm talking to Dr Amal about a new study about internet use and its effects" on the teenage brain. Could you give us some more details? about the

study, Dr Amal?

Dr Amal Hello Soha. Yes, sure. Well, the study followed nearly 250 teenagers over 10 years to find out how much time they spent online and what effects that had on their brains.

Presenter And what were the main findings is of this study?

The study found that using the internet too much Dr Amal had become a bad habit for some of the teenagers.

Presenter What exactly do you mean by "it had become a bad habit"? Was using the internet having negative effects on them?

Dr Amal I mean that they were using the internet for hours every

day and they couldn't stop doing it. They were addicted to the internet.

Presenter That doesn't sound very good at all.

Dr Amal No, it isn't. If you are addicted to something, your brain releases in chemicals " that make you feel happy when you do it. That's why it's hard to stop doing it.

Presenter But then you might only feel good when you're doing that activity , like using the internet?

Dr Amal Exactly. The study shows that this addiction to the internet amongst teenagers has a negative effect on the part of the teenage brain that manages decision-making and how you behave.

Presenter OK, so you might behave differently to normal " or make bad decisions.

Dr Amal Yes, teenagers who are addicted to the internet find it hard to talk to others and communicate with parents and other adults. Also, internet addiction can cause teenagers to have bad sleeping and eating habits. If you're not sleeping enough or eating healthy food, that also has a bad effect on your health and well-being.

Presenter Is it possible for students to "get back to normal" after becoming addicted to the internet?

Dr Amal The research tells us that that's possible, yes. If teenagers who are addicted to the internet use their devices less often, their sleep and health will improve.

Presenter So what advice would you give to teenagers who think they could be addicted to the internet?

Dr Amal If you only spend one or two hours online a day, you'll slowly become less addicted to the internet. You'll have more time to see your friends in real life and go outside and do something fun. That will make you feel better too.

Presenter Dr Amal. Thank you very much for talking to us.

The internet can have advantages as well as disadvantages. On one hand, it helps us learn new things, talk to friends, and do our work. We can watch videos, and play games online. It also helps us get a lot of information when we do research for school or work. On the other hand, some people can be addicted to going online, and spend most of their time on social media. It also has a lot of wrong information so we should browse trusted websites. It's important to be careful and not share personal information because people can hack your information. We should also be aware of fake news and only trust reliable sources.

Meeting Rana

Today, I watched a Paralympics¹¹ sports event². These are sports for people with a disability 9. There was the final of the wheelchair tennis and an Egyptian girl won. She was so fast!

The next day, I was very surprised because I saw the tennis player in the wheelchar(). I was with some friends in a café and she was at the next table.

"I watched you win your tennis game yesterday," I said to her. "What an achievement! You were amazing."

"Thank you," said Rana. She looked at me and said, "Do you play tennis, too?"

"No!" | laughed, because I, too, used a wheelchair. I couldn't walk after I had a sickness(5) when I was a child.

"Don't laugh!" said Rana. "You can play tennis like me, if you want. I can help you."

Then, Rana told me her story. She was always good at sports, and she was very good at tennis. "Don't play tennis against Rana!" her older sister Malak always said. "If I play her, I lose every time! She's so good."

Rana liked to play tennis after school and on the weekends. "I think she'll play at Wimbledon one day!' said her father. "Or perhaps she'll join the Egyptian Olympic Team!" said her mother.

One day, something terrible happened. Rana was crossing the road when a car hit her. She had to go to hospital for many weeks.

"I'm sorry, but you won't walk again, Rana," said the doctor. "You'll have to use a wheelchair." Rana was very sad. It took her a long time to understand that she although could not walk, she could do many things. Her father told her about wheelchair tennis, and soon she was playing the sport every week. A year later, she joined the Paralympic tennis team and now she was a champion. And that was when I saw her.

"If you want to play tennis, don't let your wheelchair stop you," Rana said.

Now, I'm playing wheelchair tennis every week too. Perhaps one day, I'll join a Paralympic tennis team, like Rana!

Lesson & Writing

- How much time do you spend on your social media every day?

Read and listen to Amany's reflective journal entry about her digital habits. What does Amany think about the digital habit in the photograph? SB page 54

This week at school, we're talking about digital habits. I thought about how, when, and how often I use digital technology and I realized that my digital habits are quite good.

For example, I never watch videos or look at my phone for too long in the evening. I usually read a book in the hour before I go to bed instead to give my eyes a rest from looking at a screen.

I also don't spend too much time looking at a screen during the day either. It's usually 1.5 hours a day. That's enough time to reply to messages from friends when I relax after school, but it isn't too much time.

I have one bad digital habit though. I sometimes look at other people's photos on social media and compare myself to them. I know that you only see the highlights on people's social media profiles, but sometimes looking at these profiles makes me feel like I'm not good enough. I'm going to stop looking at other people's profiles and comparing myself to them from now on.

Teens get addicted to things quickly. This means they can't stop easily and might need help from family and friends to take time (1) from their screens. Too much time on (2) can be bad. If teens are always online, lonely. This isn't healthy. So, try to (4) your screen time and spend more time with real people.

Read the following, then answer the questions:

In modern life, social media is developing fast. It is especially very popular among the teenagers. Addiction to social media has many dangerous effects, including poor study habits, living away from reality and bad health. First, addiction to social media makes the teenagers have bad grades in studies. Every day, students come to class, but **they** do not focus on studying. Moreover, at home these students do not do exercise or read the new lesson before going to school, because they are busy with social media. Secondly, these young people can live far away from reality. They will not have time for outdoor activities such as playing sports or camping. Finally, using social media too much will have a serious effect on health. Staying up late is really harmful to health, especially the brain.

Reading & Listening Skills

Pre-reading question:

- Why do you think cars cause problems to the environment?

Read and listen to the text about clean transportation. Match the subheadings (a-d) with the correct paragraphs (1-4). SB page 56

Clean transportation

(1) c) The problem

Driving cars is very bad for the environment. About 23% of all the world's carbon emissions 1 come from cars. Vehicles? that aren't electric? and don't use clean fuel damage the environment and cause health problems.

Use as much clean transportation as possible. Clean transportation is anything you use to get around that produces 'less carbon emissions than normal" cars.

(3) d) Does this mean I can't drive a car?

You can still do that, but your vehicle needs to be either electric or use clean fuel. Electric vehicles are cars

that you connect to the electricity supply 7 at a charging station 8 and that gives the car the power it needs to move. Using electricity means that no dangerous carbon emissions come out of the car when you drive it. By 2030, there will be so many electric vehicles that we will use much less oil every day than we do now.

(4) b) The solution

You can still use clean transportation. Find out if you can travel by train, bus or bike instead of by car and do that if you can. More and more town and cities now have bike lanes to make it easier for people to ride their bikes. If you really need to travel by car, try carpooling ". Find a friend or relative who wants to go to the same place as you and ask if you can drive there with them. Carpooling can reduce the number of cars on the roads by about 20%, which help lower carbon emissions.

Man 1 Ladies. and Gentlemen. The train on platform 5 is the train from Cairo to Aswan. This train leaves at 19:35 and arrives in Luxor at 6:35 and in Aswan at 9:45.

Woman 2 The next bus from Sohag to Akhmim
leaves from platform 2 at 6:30 this
morning. The next bus after that leaves at 7:30. The 6:30 bus arrives
in Akhmim at 6:55 due to road works on the route?.

Man 2 The next bus from Hurghada Airport to
Marsa Alam comes into the airport at 5
o'clock. Then it leaves the airport at 5:10.
The bus doesn't leave from the bus stop
1A anymore, it leaves from bus stop 2B.

Woman 2 The next train on platform 2 is the 11 o'clock service from Alexandria to Cairo. This train is the express service and it takes two hours.

Example

"Clean transportation"

Clean transportation can help the environment in many ways. Electric vehicles, such as cars and buses, help reduce pollution because they don't use the normal fuel. Public transportation like buses and trains can carry many people, which helps reduce the number of cars on the road. Bikes are also a great option for short trips and do not produce any emissions. Carpooling allows people to use the same car, which reduces the number of vehicles. Clean transportation helps improve air quality and reduce carbon emissions. All these ways help protect our planet and keep the air clean.

Narrator: Conversation 1

Woman Excuse me, do you know the way to the museum??

Man

Hmm, I think so, but I'm not sure. It could be a good idea to cross the road here. No, wait a minute, don't do that. Stay on this side? of the road. Take a left, then walk along the road and go right after that.

Woman Thank you.

Narrator: Conversation 2

Woman Excuse me, could you tell me the way to the

museum?

Yes, sure. Keep going straight ³ ahead along this road until you see a big supermarket on your left. Then cross the road there, keep going for about 200 metres and then take the first left. After that, keep going straight ahead for about 300 metres and you'll see the

museum in front of you.

Woman Thank you very much.

Narrator: Conversation 3

Woman Hello, I'm looking for the museum. Do you know where it is?

Man Hmm, no, sorry. No idea.

Woman Oh, OK, I thought it was somewhere a near to here, but I'm really not

New Egyptian cities for the future

People started planning green cities for the future in Egypt in the 2010s. Today, there are many plans to build new green cities in Egypt. In fact, we call these new places cities, but most of them are small places with an area of about 580 kilometers, for example. This means that they're more like villages than big cities like Cairo. The planners' want these new cities to be small because that makes it easier for people to travel around them without driving cars.

The streets of these new cities will be quiet and clean. No cars can go into the center of the cities, so you won't hear any noise from cars or breathe any dirty air. People can only drive their cars on the ring road?

Lesson 4: Green cities

المخططون 1	طریق دائری 🗸
	ممرات الدراحات ، 44 ،
فسأرات الجرى 5	انبعاثات الكربون (16
محريقة للمباخ 7	·· de · · · · · · · · · · · · · · · · ·

that goes all around each city. Nobody can drive through the city. There will be charging stations at different places along the road for people to charge their electric vehicles ³¹. The cities will also have bike lanes ¹⁴ and running paths ⁵, which will be up to 12 kilometers long, so that people can do exercise or travel around without producing any carbon emissions ⁽⁶⁾.

The new green cities will also have many green spaces with grass, trees, and plants. Some of these green spaces will be community gardens. In a community garden, everyone in the city is welcome to come in, enjoy themselves, and grow things.

What will be extra special about these new cities is that the people and buildings in each city will only use green energy generated in that city. Each city will produce enough energy for up to 10,000 homes and around 35,000 people will be able to live in one of these green cities. Of course, there will be schools, hospitals, sports centers, and other facilities that people need, too.

The cities are also special because the people who live there will put new trees into the ground when they cut trees down. They will also make all their own food by growing fruit and vegetables in the city and keeping farm animals there. When a city only uses the green energy it makes, and the people in the city grow all their own food, we say that the city is "climate positive". This means that it isn't doing anything to damage the Earth.

Chapter 9

The next day, Aouda saw Colonel Stamp Proctor on the train. She was afraid that he might be angry with Phileas Fogg if they met because of the fight that the two men had in San Francisco. She told Fix and Passepartout. They knew they must stop Fogg and Colonel Proctor from meeting. Fix asked Phileas Fogg to play a game of chess. He agreed and soon Fogg and Fix were playing chess all day.

Suddenly the train stopped. There were no stations nearby ³ and at first no one knew why.

'It's the bridge at Medicine Bow a mile up the railway line ', the train driver said. 'It's not strong enough to take this train.'

He said that the passengers could walk to Medicine Bow. This was a six-hour walk. The passengers were not happy.

At last the train driver decided to try to cross the bridge. If I drive the train as fast as possible, perhaps we will cross the bridge safely, he said.

The passengers were very excited and they agreed to his plan. Passepartout was worried. He said that the passengers should get off' the train before it tried to cross the bridge, but no one listened to the Frenchman.

The train went very fast over the bridge. When they crossed it safely, all the passengers cheered 1. When they looked back, they saw the bridge falling into the river behind them.

"Around the World in Eighty Days"

"Around the World in Eighty Days" is a story about a man named Phileas Fogg who makes a decision to travel around the world in just eighty days. He starts this adventure with his servant, Passepartout. Along the way, they face many challenges, including delays, storms, and even a policeman called Fix chasing them. Despite these difficulties, Fogg is sure that he will win the prize. They travel by train, ship, and even on an elephant! In the end, Fogg and Passepartout return to London just in time, winning the prize and proving that the journey around the world can be done in eighty days.

Beautiful beach resort ****

We visited Hurghada last year and we stayed in a fantastic resort on the beach. The sea was clear and warm, and we went swimming every day.

We saw lots of beautiful fish! It was our first time there and everybody loved it, although my little brother didn't like some of the food. We really want to go again! The only problem is that I don't think the airline? is going there next year, so we will have to fly with a different one.

Amazing staycation かかかかか

I live in Galala City, and it's beautiful! Last year we didn't want to go away, so we had a staycation 3! We went on a walking tour 4 and saw the historical sites. We saw the water parks and the boats, as well as new cable car 6. It has views over the mountains and the Red Sea!. I feel that I learned lots of things about my city that I didn't know before!

Taxi to the Pyramids * * * * *

Last year we visited the Pyramids in Giza. A guide told us lots of fascinating things about when they were built and why, and what things were inside them. The only problem was the shuttlebus? from the hotel, it was busy and we couldn't get on it! We took a taxi instead, which was quick and easy, so it wasn't a problem! It was an amazing experience.

I live in Luxor, which is a very interesting city. It's very old, too – around 5,000 years, making it one of the oldest cities in the world! But the part I live in is quite modern – there are lots of stores, and cafes, and there's a cinema near our home, too. This year, my parents were both really busy with work. We

love to visit different places, but this year we couldn't go away on vacation. So, we decided to have a week's staycation instead – and I'm really glad " we did. We

really enjoyed going to places in the city which we don't often visit.

We agreed to visit a different place every day for a week – but there are so many places to choose from! My parents wanted to see lots of the ancient 'places, but my sister Dalia and I felt like going to some modern places too. We visited a mix of old and new. We also went to Luxor Museum, which was fantastic – we all like looking around museums.

At the end of the week, my dad suggested trying a hot air balloon ride "! These balloon rides are famous, and many visitors to our city go on them. It was the first time we'd tried it, and it was so much fun! We could see the whole city and the river below us, and we could even see some famous ancient sites. It was really amazing!

Next year, we plan to stay in Egypt again and explore Cairo. There is so much to see there!

Post-listening questions:

1 How does Wael describe the part of Luxor where he lives?
What does he have near his home?
3 Why did they choose a staycation?

Pre-listening question:

- Where did you spend your last vacation?

Hi Dalia, how was your vacation?

Oh, hi Farah. Well, we didn't go. Our parents couldn't get time off work, Dalia so we chose to stay in Luxor and had lots of days out instead.

A staycation – that sounds good! Farah

Yes, it was. Our parents suggested visiting some places we don't go to Dalia very often, and some new ones.

Farah Did you go to the museum?

Dalia Yes, we did! It was fascinating.

Farah I hope to go there soon – it sounds interesting.

Yes, it is. We're planning to go back soon because we didn't see it all. Dalia You can come with us!

"My last summer vacation"

Last summer, I went on vacation to Marsa Matrouh with my family. We stayed for a week in a beautiful beach house. Every morning, we enjoyed a delicious breakfast together. During the day, we swam in the sea, built sandcastles, and collected seashells. One day, we went on a boat tour and saw dolphins jumping out of the water. In the evenings, we watched beautiful sunsets and had barbecues on the beach. My favorite part of the vacation was spending time with my family and relaxing by the sea. It was a wonderful vacation, and I hope to go to Marsa Matrouh again next year.

- Why is tourism important?

Read and listen to the article about tourism and the environment.

SB page 72

Tourism and the planet

Many people enjoy traveling to different cities and countries -there's a lot to see and do in our amazing world!

But when people travel, it can cause problems.

Tourists often want to visit the same place at the same time. This can make some famous places too busy, then stores, restaurants and transportation^{cl}, can't work well. There can also be problems with waste, which is bad for the environment.

Of course people want to travel - but how can we do this as well as protecting the planet?

Many professionals in the tourist industry think about eco-tourism when they plan vacations. They do things like visiting places where tourism is good for the community, for example, where local people teach visitors about their food or history.

It's important to think about how visitors use natural resources 3), too. Many resorts save water, or use wind or solar energy for electricity. And of course, everyone has to choose the right materials - single-use¹⁴ plastics are bad for the environment, so it's better to use things which can be used again and again.

When tourism is sustainable, people can continue to visit all the beautiful and interesting places in our world.

professionals.

Pre-reading question:

Lesson & Homestaya

- What do you know about homestay?

Read and listen to the report about homestays?

SB page 74

Why do a homestay?

- In recent years, more people are choosing not to stay in big hotels, but to try doing a homestay 'instead. There are many reasons for this.

What you can learn and do

You often begin learning more about the culture of a place as soon as you arrive in a person's home. Very often, the owner of the homestays gives you information about the things you can do and see nearby. They might also help with transportation, or suggest places where you can stop to eat lunch when you are out. All of this is good for the local community, because it makes people try different things and visit new places in the area.

In some cases 2, the owner of the home is still there, and you can use one or two rooms in the house. In other cases, you rented the whole house. In both cases, you see what a real home is like in the place you're visiting. This is often more interesting than a hotel, where the rooms look the same. Also, if you have a problem, the owner will try to help you solve it.

How long you can stay

You can often stay for a night, a week, or longer. Homestays can be more flexible" than big resorts, which might not allow shorter breaks at busy times of year.

What you need to bring

 Usually, you don't have to bring anything with you; the homestay will have somewhere to cook, and everything you expect to find in a home. If you need to remember to bring things like towels, the owner tells you first.

Homestays are beginning to become a popular choice for travelers, and it's easy to see why. It's good to read online reviews to find good places to stay. If someone remembers having a great homestay, they often want to share their experiences with others! It's unlikely that people will stop staying in hotels completely, but there's a lot more choice for travelers today.

Language

 When we use one verb after another, we can use either the gerund or the to + infinitive for the second verb, to express different meanings.

_ عندما نستخدم فعلًا بعد فعل آخر، يمكننا استخدام إما gerund أو (to + inf.) للفعل الثانم، للتعبير عن معان مختلفة.

Verbs	(inf. + ing)	Meaning	Evample: ili
stop	(inf. + ing)	يتوقف عن فعل شمء ما (لا يفعله)	- My father stopped smoking.
يتوقف	(to + inf.)	يتوقف لكم يفعل شيئًا ما (أى أنه توقف ليقوم بفعل شمء آخر}	- Dalia stopped to talk to her friend.
remember	(inf. + ing)	يتذكر أنه فعل شيئًا من قبل (الحدث تم مسبقًا)	- I remember meeting you last year.
يتذكر	(to + inf.)	يتذكر أن يقوم بفعل معين (سيقوم ىفعل الشمء)	- Remember to lock the door.
try	(inf. + ing)	(يحرب) تُستخدم للتجربة أو الاختبار لععرفة إذا كان الشمء سينجح.	~Try adding some spices to the dish.
پچرب/يحاول	(to + inf.)	(يحاول) تُستخدم لمحاولة القيام بشمء ا يتطلب جهدًا أو يمثل تحديـًا.	- I will try to learn a new language.
begin يبدأ	(inf. + ing)	عندما نتحدث عن نشاط مستمر أو عادة.	- Adel began reading the book.
	(to + inf.)	عندما نتحدث عن بداية حالة جديدة أو شعور جديد أو فعل يبدأ للتو.	- Samir began to read the book aloud.

How to write about sustainable tourism/ doing a homestay

كيفية الكتابة عن السياحة المستدامة/ الاقامة المنزلية

Example

"Sustainable tourism"

Sustainable tourism is important because it helps protect nature and supports local people. It means traveling in ways that don't harm the environment and help the communities in tourist areas. For example, you can use eco-friendly transport, stay in green hotels, and respect the local culture. Sustainable tourism also helps save resources like water and forests. When travelers choose sustainable tourism, they reduce their impact on the planet, and local people get more job opportunities. This kind of tourism helps make sure that future generations can visit beautiful places, too. Everyone can help by making simple, smart choices when planning their trips.

Example

"Doing a homestay"

Doing a homestay is a wonderful way to learn about new cultures and improve language skills. When you stay with a local family, you get to experience their daily life. People choose homestays to feel more connected to the place they are visiting. You can try local foods, join traditional activities, and make new friends. You also have the chance to practice speaking the local language. Preparing for a homestay is easy—just bring an open mind and be ready to learn. Finally, it's a great way to explore and understand a new culture deeply.

Al City Breaks

Are you planning to visit a new city? Don't spend time reading travel guides and looking at websites. It can take hours to plan what to do and how to travel. Just type the place you're visiting into our app, and let Artificial Intelligence do the hard work!

Pre-reading question:

- Have you ever travelled to another country?

Read and listen to the story.

Last year, my family and I decided to visit Cape Town in South Africa. It's famous for amazing landscape, beautiful buildings, and of course the incredible Table Mountain. My mom bought some guidebooks.

"Why have you got those?" asked Dad.

"I want to learn about Cape Town," said Mom.

"That's the best way to see everything!"

"They're big and heavy," said Dad. "We can't carry them everywhere. We can use our phones to find maps and information online."

"It still takes time to find information online," said Mom.

"And the maps are very small!"

"You're right," said Dad.

My brother Mazen smiled at me. "I have an idea!" he said.

When we arrived in Cape Town, we took a shuttlebus 2 from the airport to our hotel. It was lovely, with beautiful rooms, but we were all tired after the trip.

Mom and Dad put the books on the table. Mom looked at them and laughed. "I don't think I do want to carry these now! Can we use your phone?"

Dad looked worried. "I used it too much on the trip," he said. "It isn't working." "Oh no!" said Mom. "There's so much to see – I don't want to miss anything!" Mazen laughed."I can help!" he said.

"That's amazing!" said Dad. "Where are we going first?"

"It says we start at the museum which is near the hotel," Mazen said.

We had to hurry round the museum because Mazen wanted to go to a large street market next. "We can't miss that," he said. The market was great, but I was getting hungry. We walked past a stall selling hot food.

"Can I get something to eat?" I asked.

"We haven't got time – sorry!" said Mazen. "We're eating in one hour in Greenmarket Square." We're going to a big aquarium first."

We hurried around the city, going past lots of interesting stores and beautiful streets, before we got to the aquarium.

"The aquarium is amazing, Mazen," said Mom. "But I think we're a long way from our hotel now."

Mazen looked at his map.

"Oh yes," he said. "I don't think I told AI where to finish the tour."

"Well – we've seen some amazing things. Thank you, Mazen – and thank you to your Al app! But maybe tomorrow we'll have a slower day!" said Mom.

- What do you think 'responsible tourist' means?

Read and listen to the tips about being a responsible tourist. SB page 78

It's great to visit different places around the world, but it's also important to be a responsible tourist. There are lots of things that you can do to help make your vacation more sustainable. This is good for the planet, so it's good for you!

- 1. This is simple: don't drop trash ever. If you can't find a trash can ', put things back in your bag until you find one. Remember to leave your favorite, untouched, beauty spot the way you found it.
- سلة مهملات (()
- مواقم سياحية (2
- پستگشف (3)
- 2. Think about how you travel. Airplanes and cars use a lot of energy can you walk, take a train, or cycle? You often see more that way too.
- 3. Think about visiting a quieter place. The most famous tourist sites 4 can get too busy, but there are lots of things to see in other places. Don't be afraid to try visiting somewhere new.
- 4. Save energy when you're on vacation: turn off lights and don't waste water, just like you would at home.
- 5. Spend money in the local area. Tourism can be good for communities when people shop and eat locally, and explore 3 the area they are staying in.

Remember: We live on a beautiful planet, and we want to keep it this way!

Review on Units 10,11212

Reading & Listening Skills

Pre-reading question:- How do you go to school?

Read the text quickly. Which type of green transportation in the text doesn't appear in the photos?

SB page 80

Green transportation is a way of traveling that is better for the environment. It reduces carbon emissions, saves energy, and helps protect the planet.

Leg Power(1)

Cycling and walking are the cleanest forms of transportation. They don't produce any carbon emissions and they're great for traveling short distances (2). Traveling to work or school by bike or on foot helps reduce air pollution and traffic. Cycling instead of driving, even a few times a week, can make a big difference to the environment.

Public Transportation

Trains, streetcars (3), and buses are much more eco-friendly than cars or planes, especially for longer distances. Streetcars, which run on electricity, are a green and efficient (4) way to travel, especially in cities. Like buses and trains, streetcars can carry a lot of passengers at once, which greatly lowers (5) the carbon emissions per person.

For example, a full bus can replace ⁽⁶⁾ up to 50 cars on the road which helps reduce both pollution and traffic. Similarly, trains use less energy and produce fewer carbon emissions than planes or cars. Traveling by trains, streetcars, or buses is a great way to be sustainable and to help protect the environment.

Hybrid (7) and Electric Cars

For people who have to drive, hybrid or electric cars are a greener alternative (8) to traditional cars. Hybrid cars use both electricity and fuel. For shorter trips, hybrid cars often don't need to use fuel and can run on electricity alone. Electric cars are even cleaner but only if they're charged with renewable energy.

Test yourself Lessons (1 & 2)

Listen and choose the correct answer from a. b. c. or d:

Last week, I learned a new word: "enormous". It means something very, very big! At first, I found it hard to say, but I decided to practice. I wrote it down many times and said it aloud slowly. My friend helped me and put it in a sentence. She said, "The elephant is enormous!" That made me laugh, and I remembered the word better. Learning new words is fun, and it helps me speak better.

Al-Adwaa Test on Unit 7

Listen and choose the correct answer from a, b, c, or d:

Today, Mazen spent the afternoon learning to ride a bike. At first, he felt nervous because he was afraid of falling, but he didn't give up. His dad helped him practice pedaling, and Mazen kept trying until he could ride on his own. Mazen has always thought that riding bikes looks fun and exciting, and now he feels happy and proud of himself.

Test yourself Lessons (1 & 2)

Listen and choose the correct answer from a, b, c, or d:

I'm Karma. Last summer I volunteered at the zoo every weekend, through our school volunteer program, I was so excited because I love animals, but I was also nervous about meeting new people. I fed the animals, cleaned their enclosures, and guided visitors. As I got more comfortable, I enjoyed talking to the guests and learning about animal care. It was a great experience!

Al-Adwaa Test on Unit 8

Listen and choose the correct answer from a, b, c, or d:

In the new city, twins Adam and Amira lived in a small apartment on the top floor of a tall building. Outside in the city, there were the sounds of cars, buses, and people talking. Despite the noise, they loved looking out of the window at the busy streets below. They often wished there were more parks and green spaces nearby.

Test yourself Lessons (1 & 2)

Listen and choose the correct answer from a. b. c. or d:

Maria feels nervous about her next test. She is worried about doing badly and wants to find a way to relax. Maria decided to go to the mall on Saturday to have some fun. She hopes this will help her feel better. The plan is to enjoy the day and forget about her worries for a while.

Test yourself Lessons (1 & 2)

Listen and choose the correct answer from a. b. c. or d:

My dad thinks I spend too much time gaming, so he set my laptop to turn off after one hour. I know gaming can be bad if you play too much, but I still enjoy playing sports with friends. Some friends spend all their time on social media. sending friend requests to strangers, which can be dangerous because those people might be adults.

Al-Adwaa Test on Unit 10

Listen and choose the correct answer from a. b. c. or d:

Today, I watched a Paralympics sports event. These are sports for people with a disability. There was the final of the wheelchair tennis and an Egyptian girl won. She was so fast! The next day, I was very surprised because I saw the tennis player in the wheelchair. I was with some friends in a café and she was at the next table.

Test yourself Lessons (1 & 2)

Listen and choose the correct answer from a, b, c, or d:

Driving cars is very bad for the environment. About 23% of all the world's carbon emissions come from cars. Vehicles that aren't electric and don't use clean fuel damage the environment and cause health problems. Instead of using dirty fuel, clean fuel should be used as it produces fewer gases. and is better for the environment. Driving cars is harmful for the environment, and carbon emissions pollute the air.

Al-Adwaa Test on Unit 11

Listen and choose the correct answer from a. b. c. or d:

To reach the park, walk straight for two blocks. Then, turn left at the library. The park is next to the library, so you can easily find it. It's a great place to relax and enjoy the outdoors. ALTERNATION IN

Unit 7

the second second second

We can learn in an eco-friendly way by making small changes. We can walk, use bikes, or use public transport to get to school to reduce pollution. We can choose eco-friendly study materials like recycled notebooks and pens made from sustainable materials. We can take notes on a computer or tablet instead of using notebooks to reduce paper. We can study during daylight hours and turn off lights and devices when not in use to save energy. By making these simple changes, we can help protect our planet.

"Learning something new"

Last week, I learned how to ride a bike. At first, I was really scared to get on the bike because I thought I would fall. However, with the help of my older brother, I started practicing in a quiet park. It was hard to balance and cycle at the same time. My brother was patient and encouraged me to keep trying. After a few days of practice, I could ride the bike slowly. It felt amazing to achieve this goal. I'm so proud of myself! I advise young people not to give up their dreams and to ask for help to learn new things.

Unit 8

Thursday, 20th March

Helping out

I recently volunteered at a local animal volunteer program. I helped clean the monkey enclosure, feed the animals, and play with the cats and dogs. I helped make a cleaner and happier environment for the animals. I learned the importance of helping others and the joy of giving back to the community. It was a truly amazing experience. I will volunteer again next year.

What do you think of it? Do you like it?

"A problem in my community"

Every community has some problems. One of the problems in my community is that there aren't many facilities for children and adults. There aren't enough places for exercising, relaxing, hanging out, and having fun. The main reason is the construction of new buildings in open spaces. For example, they built an apartment building instead of the local park. It was very frustrating. We can work together to solve this problem. We can encourage the local leaders to assign land for building more parks and community centers. We should also keep all these places clean to improve the quality of life.

Unit 9

About: "A true friend" From: Sally To: Esraa

Hi Esraa.

How are you? I want to tell you about my friend Emily. She is a true friend. She is kind, understanding, and always there to listen. One day, her best friend, Sarah, was feeling very sad. Sarah had failed a test and was worried about her future. Emily listened carefully to Sarah's worries and said kind, helpful words. She helped Sarah study for the next test and reminded her that everyone makes mistakes. With Emily's support, Sarah could face her fears and start to work again. This story teaches us the importance of true friendship and how a kind word or a helping hand can make a big difference.

Unit 10

"The internet"

The internet can have advantages as well as disadvantages. On one hand, it helps us learn new things, talk to friends, and do our work. We can watch videos, and play games online. It also helps us get a lot of information when we do research for school or work. On the other hand, some people can be addicted to going online, and spend most of their time on social media. It also has a lot of wrong information, so we should browse trusted websites. It's important to be careful and not share personal information because people can hack your information. We should also be aware of fake news and only trust reliable sources.

Unit 11

"Clean transportation"

Clean transportation can help the environment in many ways. Electric vehicles, such as cars and buses, help reduce pollution because they don't use the normal fuel. Public transportation like buses and trains can carry many people, which helps reduce the number of cars on the road. Bikes are also a great option for short trips and do not produce any emissions. Carpooling allows people to use the same car, which reduces the number of vehicles. Clean transportation helps improve air quality and reduce carbon emissions. All these ways help protect our planet and keep the air clean.

"A future city"

A city for the future will have new technology and smart buildings to make life easier. People will travel in electric cars, buses, and bikes. There will be lots of green spaces, like parks and gardens, for people to enjoy. The buildings will be tall and use clean energy. The city will be good for the environment with less pollution. People will live in comfortable homes with modern facilities. Schools and hospitals will have the best technology. The future city will stay clean and safe with good planning. It will be a wonderful place to live in.

Unit 12

"My last summer vacation"

Last summer, I went on vacation to Marsa Matrouh with my family. We stayed for a week in a beautiful beach house. Every morning, we enjoyed a delicious breakfast together. During the day, we swam in the sea, built sandcastles, and collected seashells. One day, we went on a boat tour and saw dolphins jumping out of the water. In the evenings, we watched beautiful sunsets and had barbecues on the beach. My favorite part of the vacation was spending time with my family and relaxing by the sea. It was a wonderful vacation, and I hope to go to Marsa Matrouh again next year.

"Sustainable tourism"

Sustainable tourism is important because it helps protect nature and supports local people. It means traveling in ways that don't harm the environment and help the communities in tourist areas. For example, you can use eco-friendly transport, stay in green hotels, and respect the local culture. Sustainable tourism also helps save resources like water and forests. When travelers choose sustainable tourism, they reduce their impact on the planet, and local people get more job opportunities. This kind of tourism helps make sure that future generations can visit beautiful places, too. Everyone can help by making simple, smart choices when planning their trips.

Screen time refers to the time spent using devices like TVs, computers, and smartphones. It's important to **balance** screen time with other activities. Too much screen time can damage your eyes and make it hard to sleep. To stay healthy, it's good to take breaks and do other activities like playing outside, reading, or talking with friends. Setting limits on screen time can help you stay focused and enjoy different hobbies. Parents can help by setting rules for it and encouraging family activities without screens. By managing screen time wisely, you can have a healthier and more balanced life.

Learning in an eco-friendly way means using methods that are good for the environment. Students can use digital books instead of paper books to save trees. They can also *recycle* paper, plastic, and other materials. Using reusable water bottles instead of plastic ones is another way. Schools can save electricity by turning off lights when not needed and using natural sunlight. Outdoor classes in parks can also reduce the need for electricity. These actions help protect our planet and make learning better for everyone. It's important to think about the environment while learning.

Artificial Intelligence (Al) has both pros and cons. On the positive side, Al can help us in many ways. It can do tasks faster than humans, like finding information or predicting weather. Al can also help in medicine and diseases. However, there are some cons to Al. It might take away jobs from people because machines can do the same work. There is also a danger of privacy problems as Al can collect a lot of personal data. Lastly, relying too much on Al might make people less skilled at certain tasks. It's important to balance the use of AI to get the benefits while managing the dangers.

The brain is a complex organ. The human brain weighs about 1.4 kilograms. Some people believe the brain is the most amazing part of the body. The brain controls our thoughts, memories, and actions. Many think that using the brain for puzzles keeps it healthy. The brain is made of billions of neurons that send messages. Neurons are the building blocks of the brain. Some say creativity comes from the right side of the brain. Facts help us understand the brain's functions, while opinions show personal beliefs.

Tamer and Gamal are wonderful friends. One day, Tamer had a bad day at school and felt very sad. Gamal noticed and stayed with him, listening to his problems. Gamal told Tamer that everything would be okay and cheered him up with funny stories. They went to the park and played their favorite games. Tamer felt much better because of Gamal's *support*. A real friend like Gamal is always there to help and make you feel better. Friendship means caring for each other and being there in good times and bad. Today was a quiet and thoughtful day. I spent the afternoon sitting by the window, watching the rain. The soft sound of raindrops helped me reflect on my week. I realized that I often forget to appreciate the small moments in life. This week, I made new friends at school and learned new things in class. Writing in my journal helps me remember these special times. It also makes me feel grateful and happy. I decided to set a goal to write in my journal every day. I believe this will help me stay positive and mindful of the good things in my life.

Staying in touch with friends is important. One tip is to set a regular time each week to call or video chat. <u>This</u> helps you stay updated on each other's lives. Another tip is to send messages or emails. Even a simple "hello" can brighten their day. You can also plan visits or meet-ups when possible. Sharing photos and memories on social media is another great way to feel connected. Remembering special occasions like birthdays and sending cards or gifts shows you care. These little efforts make friendships stronger and keep the bond alive, no matter how far apart you are.

Clean transportation is important for the environment. It includes using electric cars, bicycles, and public transportation like buses and trains. These options produce less pollution compared to regular cars. Using clean transportation helps keep the air clean and reduces traffic. Riding a bike or walking also keeps you healthy. Cities are *encouraging* people to use clean transportation by building more bike lanes and improving public transportation. By choosing these options, everyone can help fight climate change. Clean transportation is a simple way to make a big difference. It benefits both the planet and our health.

I recently took a vacation to the beach and had a wonderful time. The weather was perfect, and the water was clear and warm. The hotel was clean, and the staff was very friendly. Each morning, I enjoyed a delicious breakfast by the ocean. During the day, I relaxed on the beach and swam in the sea. In the evening, I explored the nearby town and tried different restaurants. My favorite part was the boat trip where I saw dolphins. This vacation was a great way to relax and have fun. I highly **recommend** this destination to anyone looking for a peaceful vacation. Homestays are becoming popular for travelers who want to experience life in the countryside. Staying with local families allows visitors to learn about traditions and enjoy the natural beauty. Guests can take part in daily activities like farming, cooking, and animal care. These homestays provide a special and true experience compared to **typical** hotels. **They** also help support local businesses by providing some money to the host families. Travelers often leave with a deeper appreciation for local life. This type of travel is not only enjoyable but also educational, making it a great option for those seeking a meaningful vacation.

When we are learning, it is important to think about the environment. Everyone knows how important it is to protect our planet. You should make your learning eco-friendly.

When do you usually study? A lot of students study in the evening when it gets dark. But ask yourself this question: How did people study before there were electric lights? You can save energy while studying. Turn off lights and devices when you are not using them. Try to study during the day so you can use natural sunlight. This will help you use less electricity.

Last week, I volunteered at the museum with my school history club. I love history and helping people, so I was excited! On Saturday, we arrived at 8:00 a.m. before the museum opened, and helped make some museum displays. Then the museum opened! Not long after that, I saw a group of younger kids who needed some help. I helped them draw pictures of their favorite artifacts. Some kids were shy at first, but when they started coloring, they became more confident. By the end of the day, I realized how much I loved helping others discover history. I can't wait to volunteer again!

Answer the following questions:     Why was the writer excited about volunteering	at the museum?

### (5) Listening Texts

TRUE TO

Listen and choose the correct answer from a, b, c, or d: When I learn something new, I break it down into small parts. I use pictures to help me understand better. I read and listen to the information many times. Teaching it to someone else also helps me remember. I make connections to things I already know. Repeating makes it easier to learn and remember new things. It's a simple way to improve my learning skills.

Test 2

Listen and choose the correct answer from a, b, c, or d: Town planning is important for small cities in Egypt to control growth. It makes sure there are good roads, schools, and hospitals. It helps stop too many people living in one place. Good planning improves life quality, reduces traffic, and helps the environment. By organizing spaces well, town planning saves natural resources, creating a happy community.

Test 3

Listen and choose the correct answer from a, b, c, or d: Emily Dickinson was born in 1830 in Amherst, Massachusetts. She rarely left her home, preferring quietness. Despite this, she wrote over 1,800 poems, many of which explore themes of death. Dickinson's work was affected by her notes of nature and during her lifetime, only a few of her poems were published, and often, they were edited heavily.

Ties 4

Listen and choose the correct answer from a, b, c, or d: Helping out can make a big difference in someone's life. Simple acts like carrying groceries for an elderly neighbor or volunteering at a local charity are great ways to give a hand. Even small things, like holding the door open or offering a smile, can make others happy. Helping others is not only useful for them but also brings fun to you.

Test

Listen and choose the correct answer from a, b, c, or d: My morn wants me to spend more time outdoors. She says I should play outside instead of watching TV. Now, I can only watch TV for one hour a day. She thinks too much screen time is bad for my health. She read that spending time outside can make you happier and healthier. I guess I need to find some new hobbies.

less 5

Listen and choose the correct answer from a, b, c, or d: Driving cars harms the environment. About 23% of the world's carbon emissions come from cars. Vehicles that aren't electric or don't use clean fuel cause pollution and health issues. To help the environment, use clean transportation. Clean transportation produces fewer carbon emissions than regular cars.

Tell /

Listen and choose the correct answer from a, b, c, or d: To make your learning eco-friendly, use digital notes instead of paper. Recycle any paper you do use. Choose recyclable materials like pens and notebooks. Use energy-efficient devices and turn them off when not in use. Use public transportation to get to your classes. One idea is to print on both sides of the paper to reduce waste.

Test

Listen and choose the correct answer from a, b, c, or d: Many students study in the evening. To save energy, turn off lights and devices when not in use. Try studying during the day with natural sunlight to use less electricity. Also, consider using pens made from recycled materials and notebooks with recycled paper. Finally, to reduce pollution, walk, cycle, or take public transportation to school.

les I

Listen and choose the correct answer from a, b, c, or d: I think what helped me succeed was not giving up. I kept trying and made small changes each time. Now, I know it's okay to fail at first because that's how you learn. In the future, I'll remember that practice and patience are important for any challenge.

Test TO

Listen and choose the correct answer from a, b, c, or d:

Shorouk: How's your new life in Europe?

Farida: It's OK, but the basketball court is closed.

There was a sign saying it's not safe.

Shorouk: Oh no! We have a similar issue here. They're building new apartments on open spaces. I wish we had more parks.

Farida: Exactly! I went to the community center to meet new friends, but it's outdated and doesn't offer many activities.

[ Jast III

Listen and choose the correct answer from a, b, c, or d: Healthy eating is important for everyone. Eating a balanced diet helps you stay strong and active. You should eat fruits and vegetables every day. Avoid too much sugar and fast food. Drinking plenty of water is also essential. By making healthy food choices, you can improve your overall health and feel better each day.

Listen and choose the correct answer from a, b, c, or d: Today, there are many plans to build new green cities in Egypt, but most of them are small places with an area of about 580 kilometers, making it more like a village. The plan was announced in 2022, and it will take time to complete. The new green cities will have many green spaces with grass, trees, and community gardens.

#### Total TD

Listen and choose the correct answer from a, b, c, or d: Today, I spent the morning gardening with my mother. I wanted to plant flowers, but I quickly realized it wasn't easy. The ground was hard, so digging the soil was very difficult. However, I kept dropping the seeds. This was terrible, and I wanted to stop. My mother helped me, saying, 'Gardening needs patience, Lily! Her words reminded me that new skills need time. In the end, I felt proud seeing the planted flowers.

#### Test 16

Listen and choose the correct answer from a, b, c, or d: Many people think our brains make new brain cells when we learn something new, but actually, we make new connections between existing cells. In the past, people believed our brains were inactive during sleep. However, new technology shows that some parts of the brain remain active. Research indicates that young people are more interested in learning when they understand its usefulness.
